

## **Ardmin Properties: Climbing to New Heights**

**Woodridge, IL-** Ardmin Properties Management Group, Inc. participated in the **Go Vertical** charity event sponsored by the Damon Runyon Cancer Research Foundation Sunday, November 12<sup>th</sup>. The foundation supports scientists researching causes and cures for cancer. **Go Vertical** took place at the Sears Tower in Chicago, Illinois from 7:00 am until 11:00 am. It was the fifth annual race in which participants climb 103 floors, or 2109 steps. With a \$200,000 goal set for the event, the Damon Runyon Cancer Research Foundation raised \$273,649, \$1,920 of which was from Ardmin Properties Management Group, Inc.

Two-year participant and Ardmin Properties Management Group, Inc. employee Steven Munoz stated, "It's a challenge to walk in the stair climb, but it's a small price to pay considering what any cancer patient must go through on a daily basis. I'm happy I can give in some way to help the foundation get one step closer to a cure." The Ardmin Properties staff is looking forward to participating in **Go Vertical** again in 2007.

**Go Vertical** is also hosted annually in Aspen, Colorado as well as Boston, Massachusetts.
